I appreciate this Ned. I have been reading Michael Oren's new book. Oren is a friend, but the history on which the book is constructed seem to me to be fantasy for the most part. Think it calls out for a really honest critique.

How are things?

Hi Tim:
Hope you're well. I know Ehud and Nili are heading your way, and that you'll have the opportunity to talk
at length. But I thought it would be helpful to assure you that, in addition to the central task of getting it
written, the trajectory of the book, I think, is shaping up to build toward an increasingly strong, reflective
critique in the final chapter or two of where Israel has come from, where it is now, and the key issues
that it has been failing to address to secure a future that redeems its founding, Zionist vision.
Best
Ned
